LANDSCAPE ARCHITECTURE A SELECTIVE GUIDE TO LIBRARY RESOURCES

This guide contains a bibliography of titles and electronic resources that will assist students in locating materials for Landscape Architecture. This guide is general in its approach to finding materials and resources housed in the F.D Bluford Library and identifying and finding resources that may be on the Internet. It is not meant to be comprehensive. This guide is meant to help students organize their research as well as to give them tips on research strategy. Please come to the Reference Desk and talk with a Reference Librarian for assistance if needed.

Using the INNOPAC

Establishing what resources F.D. Library owns on your subject should be your first priority. To do this, you must search the Library Catalog – INNOPAC - the **online public access catalog (OPAC)**. The catalog can be searched via the original, text based interface or via the web browser interface. Both versions can be accessed from the library, any campus computer lab or from off campus via remote access. The Library Catalog can be searched by **AUTHOR, TITLE, KEYWORD, JOURNAL TITLE**, and by **SUBJECT HEADING**. Do a keyword search if you do not know a specific title or a standardized subject heading.

These are some subject headings related to Landscape Architecture: ARCHITECTS, ARCHITECTURAL DRAWING, GARDEN ARCHAEOLOGY, GARDENING, GARDENS, HISTORIC AGRICULTURAL LANDSCAPES, HORTICULTURE, INTERIOR LANDSCAPING, LANDSCAPE, LANDSCAPE ARCHAEOLOGY, LANDSCAPE ARCHITECTS, LANDSCAPE ARCHITECTURAL DRAWING, LANDSCAPE ARCHITECTURAL FIRMS, LANDSCAPE ARCHITECTURAL PROJECTS, LANDSCAPE ARCHITECTURAL SERVICES, LANDSCAPE ARCHITECTURE AND ENERGY, LANDSCAPE DESIGN, LANDSCAPE ARCHITECTURE FOR PEOPLE WITH DISABILITIES, LANDSCAPE ARCHITECTURE FOR THE AGED, LANDSCAPE ARCHITECTURE IN WATER CONSERVATION, LANDSCAPE ASSESSMENT, LANDSCAPE CONSTRUCTION, LANDSCAPE GARDENING, LANDSCAPE IRRIGATION, LANDSCAPE PAINTING, LANDSCAPE PLANTS, LANDSCAPE PROTECTION, LANDSCAPING INDUSTRY, ORGANIC GARDENING, WOMEN LANDSCAPE ARCHITECTS.

Beginning Your Research

Use encyclopedias, handbooks, or dictionaries. Overviews or definitions of your topics are presented in concise entries or articles. More in depth analysis of your topic can be obtained from the bibliographies at the end of the articles or entries. The table of contents or index should be consulted for your topic.

Audiovisuals, Bibliographies, Career Guides, Dictionaries, Encyclopedias, Guides and Handbooks

Dictionaries provide brief entries that are quick and helpful sources for the definition or identification of a term, movement, or person. Handbooks and dictionaries can help you throughout your research by providing quick, factual information that you may need to support your ideas.

Encyclopedias are also a good place to start, especially if you are unfamiliar with the topic. Articles in encyclopedias are often written by recognized authorities and tend to provide established facts and ideas about the topic, its history, basic theories, and important persons who have written related articles. Also, most encyclopedia articles close with a bibliography that may help you to establish your literature search. Dictionaries provide brief entries that are quick and helpful sources for the definition or identification of a term, movement, or person in history. While dictionaries are not as broad as encyclopedias, they are particularly useful for choosing proper terminology.

Note: When using encyclopedias, first consult the index volume, usually the last volume of the set. This will tell you if your topic has an article devoted entirely to it or if it is discussed within an article on a related subject.
